

Infosys Syllabus 2021 | Online Test Pattern Written Aptitude Infosys Exam Syllabus

Infosys Syllabus 2021

Infosys has just changed their **Infosys Syllabus 2021** for On and Off-campus Recruitment. For any company, we analyze each on-campus or off-campus drive to provide the most exact Infosys Online Test Pattern. As observed in **Infosys Written Test Syllabus 2021**, the questions are very tough for Infosys Test Pattern 2021. Below you will find the detailed Infosys Exam Pattern for the 2021 year.

	Number of hours	40+
	Prime Video	yes
	Negative Marking	No
	Type of Test	Non Adaptive

Infosys Aptitude Test Syllabus

Logical Reasoning is the most difficult section asked in the Written Test Pattern for Infosys.

Note - Cryptarithmetic is the most important topic that comes in Logical Section.

There are 5 sections in Infosys Online Test Paper -

- Mathematical Ability
- Reasoning Ability
- Verbal Ability
- Pseudo Code
- Puzzle Solving

Infosys Mathematical Ability Syllabus

Here is the Infosys Quantitative Aptitude Topics asked in Online Test of Infosys –

- Percentages
- Data Interpretation
- Permutation and Combination
- Probability
- Areas, Shapes, Perimeter
- Speed Time and Distance / Boats and Streams
- Time and Work
- Profit and Loss | Mixtures & Allegation
- Problem on Ages
- Divisibility
- Number Decimal & Fractions
- Series and Progression
- LCM and HCF

Infosys Aptitude Questions

How to prepare for Infosys Aptitude Section ?

You can practise from our Infosys Aptitude Questions Dashboard here. It is highly likely that some questions in the exam will get repeated from Preplinsta.

Additional Facts

Infosys Online Test Pattern 2021

Infosys has introduced 2 new sections in the Infosys test. So now in Infosys, there are 5 sections in the test.

- Quantitative Aptitude
- Logical Reasoning
- English
- Pseudo Code
- Puzzle Solving

Here we have given topic-wise information for you.

Infosys Aptitude Syllabus 2021

INFOSYS APTITUDE TOPICS	NO. OF QUESTIONS IN TEST		
	TIME	DIFFICULTY	
Percentages	0 or 1	2 mins	Medium
Data Interpretation	0 or 1	1 min 15 secs	Medium
Permutation and Combination	1	1 min 10 secs	High
Probability	0 or 1	1 min 25 secs	Medium
Areas, Shapes, Perimeter	0 or 1	1 min 30 secs	High

- Name - Sankalp
- Date of Interview - 24th November

Like every year, this year also Infosys invited applications for filling up the vacant positions. The written round comprised two levels namely, written round and the interview. One could appear for the next round, i.e., Technical and HR.

Written Test -

The written round was further divided into Quantitative Aptitude, Logical Reasoning, and Verbal English. Each section came with a defined set of questions.

Section	Time	Questions
Logical	35 mins	15 Ques
Quants	25 mins	10 Ques
Verbal	35 mins	40 Ques
Total	95 mins	65 Ques

- The time allocated for this online test was 95 mins
- There was no negative marking
- And there was sectional cut off

There were 3 sections in the written test:-

- Quants
- Logical Reasoning (Some questions from Cryptarithmetic were there)
- English Verbal

Cryptarithmetic questions are very imp questions that I should attempt while giving the Infyiq exam. I practiced them a lot.

They have given very good and easy explanations to solve Crypto Questions on their [Infosys Cryptarithmetic](#).

The question paper for each section was prepared based on a pre-defined syllabus. The paper of quantitative aptitude covered topics like permutation and combination, time and work, profit and loss, and probability.

1

 Similar to this, the other two sections also covered topics such as coding-decoding, number series, arrangements, Jumbles, Reading Comprehensions, and Analogy in English.

Before appearing for the written round, I practiced a few [Infosys previous years papers](#) that I found on Preplounge to get a concrete idea about the expected questions.

I bought a [PreInsta Royal Pass](#) during their Diwali sale.

Link- <https://preinsta.com/royal-pass/>

It helped me a lot. I am able to access the study material of any company and also, I can attend Online Class for placement preparation. I also solved many placement questions for different companies placement from PreInsta.

Technical Interview

The next day the technical interview was conducted in the morning.

-The interviewer asked me a few basic questions about programming, gave some easy patterns, after 10 mins he moved to complex concepts.

How to use PreInsta

Questions from Dynamic Programming, BFS, DFS, Graphs, etc, He also asked me questions related to DBMS, Data Structures, Maths(Geometry basically).

Some questions were:-

1. [What is a doubly-linked list?](#)
2. [What is Insertion in the linked list?](#)
3. [What is BCNF?](#)
4. [What is RDBMS?](#)
5. [What are the types of join in DBMS?](#)
6. What is [Deadlock](#) and how you can [prevent deadlock](#)?
7. Tell me two differences between [array](#) and [pointer](#).

----- My interview lasted for around 45 mins to 1 hour.

I cleared the Technical Interview and later went for the HR Interview.

There were 2 panels in the room when I greeted them.

Well, answering the questions correctly requires basic subject knowledge and good confidence to place on the job. The interviewer came up with some fundamental questions for the round.

Interviewer asked

1. Explain your project,
2. What are your Strengths and Weaknesses?
3. Why should Infosys hire you?
4. Where do you see yourself in the next five years?

With all these questions, the interviewer was checking my behavioral and communication skills. I believe I was nervous but I tried to stay calm. After taking a deep breath upon interview completion, I was eagerly waiting for the final result announcements.

But, the wait was worth it. I finally got selected for the job on the date of the result declaration which was after one month.

I want to thank Atulya Sir for clearing my concepts and helping in brushing up my technical knowledge. You taught us many things sir.

I practiced around 30-35 coding questions from these pages for different placement drives:-

- C Questions- <https://preinsta.com/c-plus-plus/>
- Data Structures- <https://preinsta.com/data-structures/>

X

- DBMS- <https://preinsta.com/dbms/>
- Operating System- <https://preinsta.com/operating-systems/>
